

Our Mission

The mission of the Oklahoma Clean Lakes and Watersheds Association (OCLWA) is to provide a forum for scientists, citizens, and professionals to exchange ideas, receive education and form partnerships to foster sound management and protection of **lakes** and **watersheds** for today and tomorrow.

Who We Are

As the State Chapter of the North American Lake Management Society, the membership of Oklahoma Clean Lakes and Watersheds Association (OCLWA) includes individuals and representatives from agencies and organizations who have a commitment to managing Oklahoma's waters.

Members Include:

Scientists, Students, Tribes, Citizens, State Government, Local Governments, Businesses, Consultants, Federal Government

OCLWA Works For Clean Water by:

Promoting Partnerships, Exchanging Information, Supporting Science, Heightening Awareness, Protecting Resources

What We Do

OCLWA receives and disseminates information to its members regarding governmental and technical developments in lake and watershed management.

OCLWA supports the development of research and standards for lake and watershed management by hosting an annual technical symposium and supporting national lake and watershed management meetings. The OCLWA Annual Symposium is one of the few opportunities in Oklahoma to meet with other water quality professionals and interest groups to share projects and make new friends.

OCLWA is a sponsor of Lake Sweep, is involved in Oklahoma Lake Appreciation Week, and Volunteer Monitoring events to raise community awareness and allow citizens to become active participants in the protection of their lake and watershed. Lake Sweep is a trash pickup program that "sweeps" Oklahoma's shorelines free of unsightly litter. If you would like more information on bringing a "Lake Sweep" to your area, please notify one of our board members.

OCLWA supports various water-related organizations and events through monetary donations, scholarships, or coordination and event hosting.
